

Connecting to NC Skynet on an Android phone

- 1) Access your Wifi settings and pull up the list of available networks. Look for NC Skynet.

- 2) Enter your credentials in the User ID and password fields. You will see a section (1) **CA certificate No certificate specified. Your connection won't be private.** Click on **CA Certificate** and select **Don't Validate** (2)

- 3) Your phone will be connected to the NC Skynet network, it is recommended that you enable **Auto Reconnect**.
