

Connecting to NC Skynet on Windows 11

On Windows 11

- 1) Locate the Available WIFI icon.

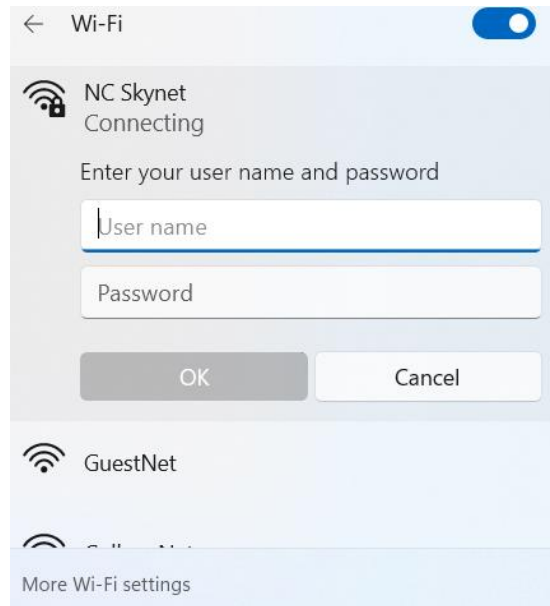

Open the list of available WIFI connections and locate NC Skynet.

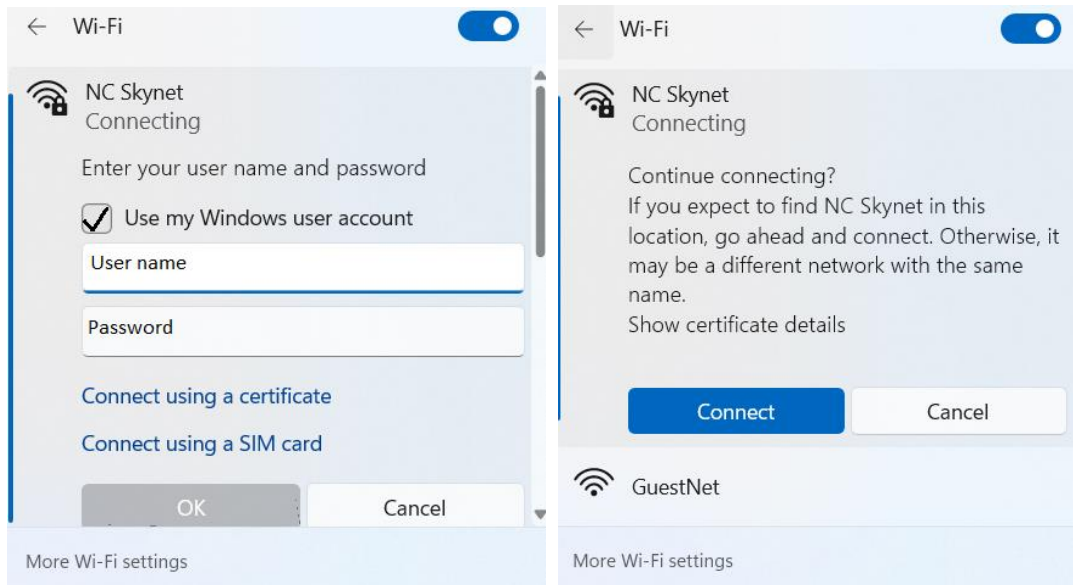

2) Select NC Skynet network and place the check mark in the **Connect automatically**.

3) Enter your credentials and click OK.

Alternatively you may select **Use my Windows user account**, then click **OK**. You will receive a connecting message select **Connect**.

- 4) You will receive a **Connected, secured** message when your credentials have been verified by **NC Skynet**.
